

## **CASE STUDY**

### **CLIENT: GLOBAL PRODUCTION & CONTENT PROVIDER**

(Specific references for this and other projects are available in confidence)

### **OPERATION: STORAGE AND SERVICING OF TAPE ARCHIVE.**

Major film and tape library consolidated from a number of collections and locations.

Data entry brief was taken from the client who asked us to work with their library software.

A dedicated account manager is able to oversee traffic, liaising with multiple client contacts to handle daily arrivals and despatches.

Additional services include shipping to markets and events worldwide, international shipping and via media recycling, secure destruction.

**“The task of consolidating an inventory of this size has been a long-held strategic aim and one that was in the end realised very smoothly, utilising media’s personnel and logistics knowhow. We are able to continue operating our own library software and have in consultation, created a daily service schedule that perfectly fits our needs.”**
